CERMARKABLES

PRODUCT TIP: LEARNING TOOLS

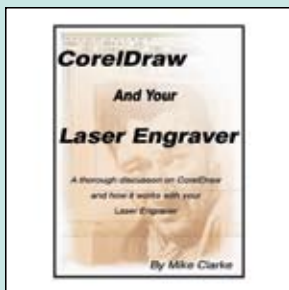

LaserBits leads the way with education for novice and expert level laser system users; helping you to learn the latest laser techniques and processes. Visit LaserBits.com and click on the Clinic button to find a live clinic in your area. Presented by Mike Fruciano, these clinics are a great opportunity to see laser engraving done right.

More than a clinic, Laser University is an established online learning site offering education on your schedule. Videos and printable outlines show you how to get your projects done fast.

The latest in laser information is right at your fingertips!

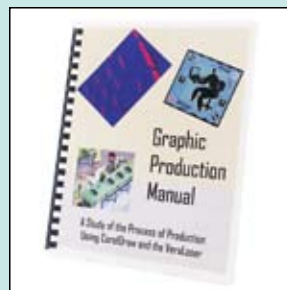

Training CD's from LaserBits feature many popular topics such as photo engraving, decorating with a laser and creating vector patterns. Each topic features videos and how-to information which will help you produce professional results. See our selection of training tools on pages 46 and 47 of this catalog.
