

The LaserBits NewsLine

the leading resource for laser products & technical support

Coconut Jewelry Products

Made from coconut gathered in the South Pacific, these unique jewelry pieces laser engrave perfectly. Choose from a wide selection of bracelets and necklaces.

Laser engraving reveals a rich brown tone for excellent contrast with the light tan color of the coconut. Perfect for clip art, text and photo engraving! Use the Alder Wood settings for your laser and start making these popular gift items today!

product highlights

Coco Combo Sample Kit

Created with hand-dyed threads, these bracelets and necklaces have a natural appeal with coconut focal points. Laser engraving reveals a rich brown tone for excellent contrast with the light tan color of the coconut. Perfect for clip art, text and photo engraving!
