

TECH TIP

LaserArt will produce remarkably sharp images perfect for engraving. Use for wall murals, donor walls, signs, coasters, plaques and promotional products. LaserArt provides beautifully detailed, photo quality, customized high resolution images up to 124MB.

This is not your run of the mill clipart. These are very large files that can be used for engraving projects up to 4' x 8'. This art can also be tiled in CorelDRAW to create smaller engraving jobs for a larger mural.

Our exciting LaserArt products have been developed by well known artists worldwide, and has been packaged in themes that have proven to be popular art categories.
